## **IARIW Special Conference on Income and Wealth in Africa**

On September 28-October 1, 2011, in partnership with Statistics South Africa, the IARIW held an international conference entitled "Measuring National Income, Wealth, Inequality and Poverty in African Countries". Around 100 delegates from 20 countries attended. The conference was a success, both from an academic and social perspective. Delegates greatly appreciated the opportunity to experience African food, culture, and hospitality, and to make new friends. The

Association would like to thank Statistics South Africa for its excellent work in co-organizing this event. A conference highlight was a speech by the World Bank's Chief Economist for Africa Shantayanan Devarajan entitled "Africa's Statistical Tragedy." It is posted on [YouTube](#).

The conference papers are posted at <http://www.iariw.org/c2011.php>. Selected papers will be published in a special issue of the Review of Income and Wealth, edited by Stephan Klasen and Derek Blades to be published in late 2012 or early 2013.
